RESOURCES

Learning
Ally &
Word
Mapping

Learning Ally is a free audiobook resource for all students to use. Your child has their log in information to access their digital library. If they cannot remember their log in information, please contact the campus dyslexia teacher.

Word Mapping website is a free resource to use when students struggle to pronounce words. This tool shows the word and connects the written word to the word's graphemes (letters) and to its phonemes (sounds). Try it out at home!

The Dyslexia Specialist have seen great progress throughout our first semester. Everyone is working hard and we are excited to see the growth from benchmark testing results.

Parent Support

We have direct links to resources that provide support for our families.
